Mini Multifuel Stove

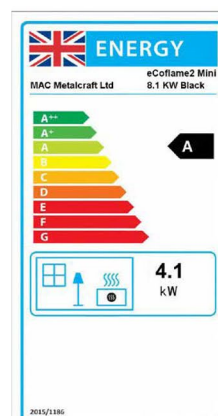

Ecoflame 2 Mini

Multifuel

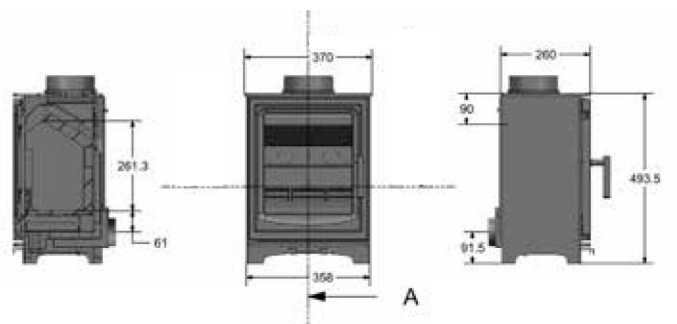

This contemporary and compact heating solution has been designed and built to meet the very latest UK air quality standards, and comes approved for smokeless zones to allow for responsible, environmentally friendly burning within smoke control areas.

With an A+ Energy Rating, the Ecoflame 2 Mini is a fantastic alternative to expensive gas heating systems for your customers and their homes, providing unrivalled value for money and energy efficiency.

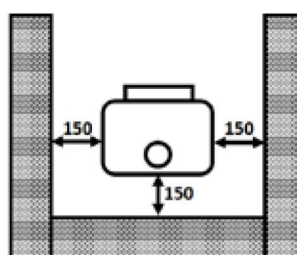

At 50kg, this smaller companion product model to the Ecoflame 2 features strong steel body, cast iron door and large glass panel to enhance the visual experience for the owner. Also featured are the air wash facility to keep the door clear of smokey deposits, multiple air settings to enable burn control, and a robust 125mm flue.

ecoflame 2 (Wide)

5kw & 8kw Multifuel Stove

Ecoflame 2 (Wide)

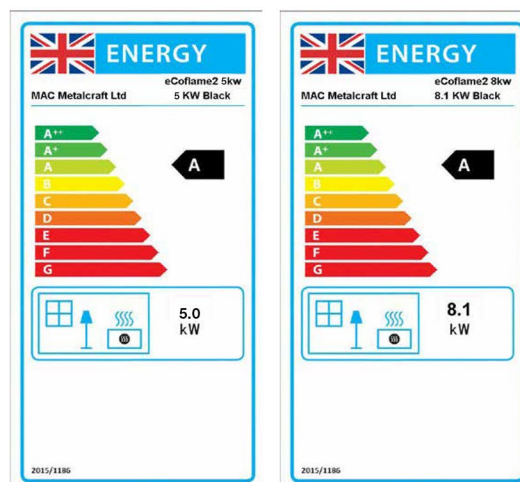

Multifuel

The Ecoflame 2 wide is an innovative, ultra-contemporary multifuel heating solution that brings together affordability, style, and an excellent 5 or 8.1kw heat output.

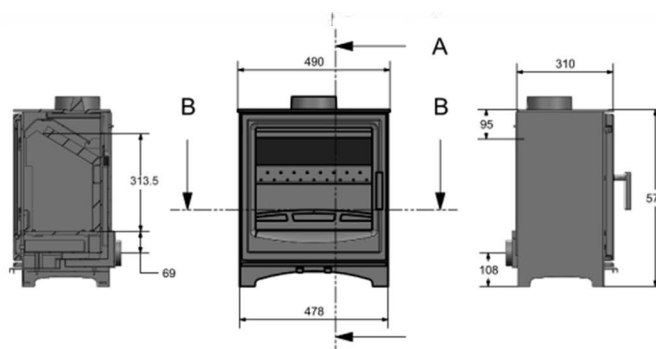

The Ecoflame 2 wide is an ideal steel body, cast iron door multi-fuel stove, that would be used for heating a larger room setting. With its extra-large viewing window and the advantage of having a 125mm outlet on the wide stove, the Ecoflame 2 wide is excellent value for money.

The Ecoflame 2 wide stove is approved for use in a smoke controlled area. This stove is Defra approved and eco-design, 2022 accredited. Combine that with an impressive efficiency, giving the Ecoflame 2 wide an energy rating of an A and a heat output up to 8.1kw, making these stoves an obvious choice when choosing a large, clean burning multifuel stove.

The stoves can be installed using a direct air kit.

ecoflame **4i**
Inset Multi Fuel Stove

Ecoflame 4i Inset C/W 3 Sided Trim

Multifuel

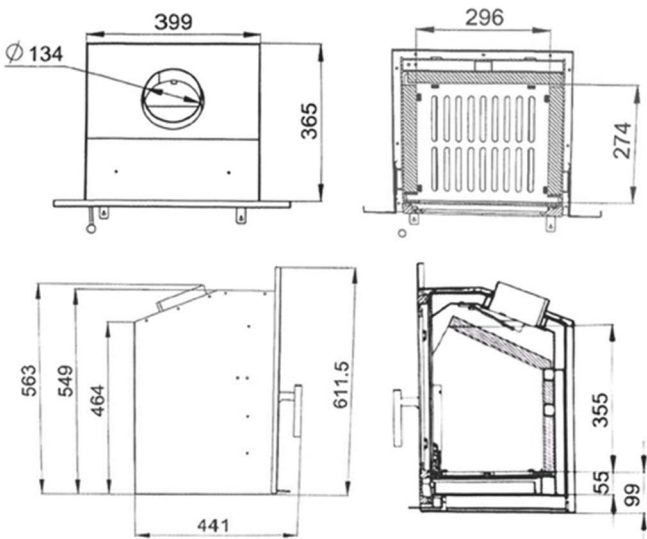

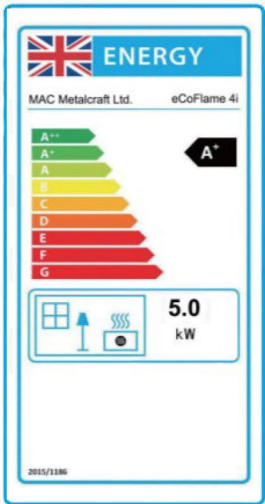

This contemporary-designed, compact, multifueled inset stove would be a great addition to any living space.

The Ecoflame 4i Inset stove is eco-design 2022. It boasts an impressive efficiency of 83.7%, giving the stove an A+ rating. Combine that with a heat output of a nominal 5kw, meaning that the Ecoflame 4i Inset is not only an ultra clean burning stove; it also packs a real punch.

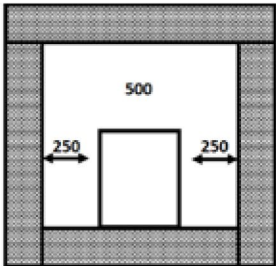

The Ecoflame 4i Inset stove is a cassette stove, meaning that it comes as a box within a box. This helps the stove deal with the heat in the confined space behind a fireplace.

With its durable cast iron door and a 3-sided trim, with an optional 50mm 3 sided and 4 sided trim available. It's easy to connect the liner to the stove from within the firebox, making the Ecoflame 4i not only durable but also installer friendly, all this at an affordable, economical price. The Ecoflame 4i will fit into a standard 22x16 fireplace opening.

Output (kw)	5kw
Efficiency	83.70%
Weight	72kg

ecoflame 5LS Soapstone

Cylindrical Woodburning Stove

Ecoflame 5LS Soapstone

Cylindrical Woodburning Stove

This innovative, contemporary, ultra-sleek cylindrical wood burning stove will complement any modern living area.

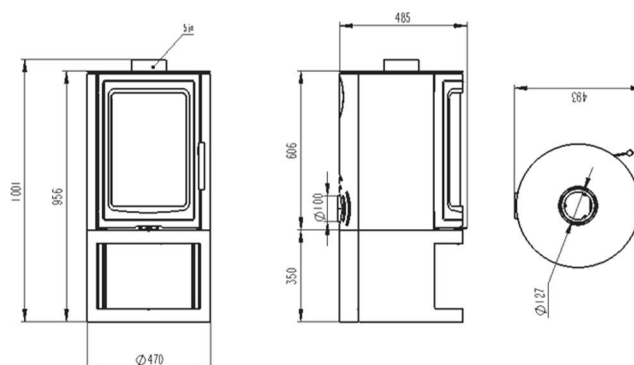

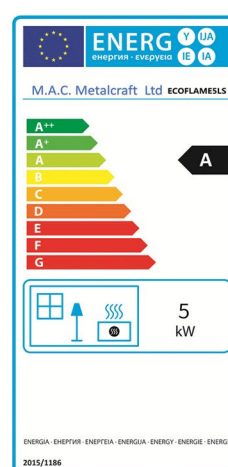

The Ecoflame 5LS Soapstone has a unique, natural beauty that can add a touch of elegance to any room. Its smooth, matte finish can develop a beautiful patina over time, giving it a distinctive character.

Overall, soapstone can be a wonderful addition to a wood burner, offering a unique combination of functionality, aesthetics, and sustainability.

The Ecoflame range of cylindrical wood burning stoves is at the forefront of stove design, not to mention their clean burning credentials. They have an impressive A Energy rating with 77.7% efficiency, and all three are eco-design 2022 rated.

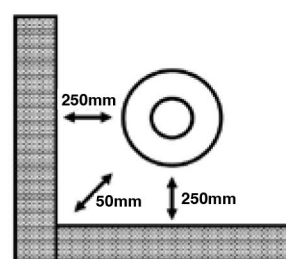

By absorbing and storing heat, soapstone can help increase the overall efficiency of the wood burner. This can lead to cost savings and reduced environmental impact.

Ecoflame cylindrical stoves come as standard with our uniquely designed heavy duty cast iron door and 125mm outlet. The stove can be installed using a direct air kit.
