MAC Metalcraft are proud to present the Symphony Fires range of products to our customers nationwide.

MAC were established in 1987 supplying the industry with spare parts for solid fuel fires, as things have changed in the market over a period, MAC has evolved into distributing a large range of fireplace products within the solid fuel, Gas & Electric fireplace markets.

Our manufacturing plant produces a beautiful range of hearths & chambers in standard sizes or to our customers own specifications.

The Symphony Solo 5 Woodburning Stove, which is British-made and recognized for its eco-friendly design. This stove is approved for use in smoke-controlled areas and is constructed using high-quality British steel. It features an effective flame control mechanism, a 125mm flue outlet, and an air wash function to maintain clear glass for optimal viewing. The Symphony Solo 5 comes with a 5-year warranty on the stove body. It is one of only a handful of stoves that has technology.

The **Symphony Solo 5** is now available as a Gas stove, featuring the new pistol burner technology available in NG & LPG versions. We have also produced a log store stand that fits all Solo 5 stoves.

Other products in the **Symphony** range are Cast non-combustible beams in a range of colours and sizes, these come complete with an easy hang bracket, we also have the **Symphony** Stove Tables which are available in 3 sizes.

The new **Symphony** eFlame electric fires, are now in stock and are available with natural log kits to make these fires look as authentic as possible.

The latest addition to the brochure is a range of **Symphony** Surrounds, these are a very competitively priced products available in Aegean Limestone, Carrara marble, Granite and Himalayan Granite.

We hope you enjoy this new range of products, for more information please contact the sales office 01709 570563 or email sales@macmetalcraft.co.uk

ECO STOVE

Introducing the Symphony Solo 5 Woodburning Stove.

Produced in the UK, this 5kW stove has been manufactured using the highest quality British steel and is approved for wood burning in smoke-controlled areas.

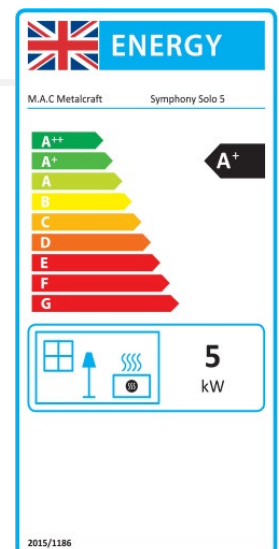

This innovative new British made stove is KIWA eco 2022 accredited and comes with an A+ Energy Rating, having achieved an incredible 83.9% energy efficiency and a nominal heat output of 5kW. It also has a particulates matter output of only 18, making the Symphony Solo 5 one of the cleanest and most energy efficient approved stoves on the market.

The steel body of the stove comes complete with an effective flame control positioned at the top of the stove for ease of use, a 125mm flue outlet, and air wash function to keep the glass clear of smoky deposits and provide stunning visuals.

With a 5 year warranty on the stove body. The Symphony Solo comes complete with the new SKANTAG system which, with the use of a QR code, has many useful functions including the stove user manuals, how to videos and the facility to record annual sweep and service records.

Output	5kW
Efficiency	83.9%

MATERIAL INFORMATION

Agean Limestone

Agean limestone is a natural stone which is a smooth finish with subtle fossil markings or natural veining. Limestone is a porous material that can stain easily, it is recommended that all our surrounds are cleaned and sealed once fitted.

Carrara Marble

Carrara marble is a high-quality white marble with blue/grey veining. The Symphony Carrara mantels are a smooth polished finish, Carrara is a porous material that can stain easily, it is recommended that all our surrounds are cleaned and sealed once fitted.

Himalayan Granite

Himalayan granite is a durable black polished granite with white/grey veining. The Himalayan polished granite is a low maintenance material making it easier to take care of, we would always recommend cleaning and sealing once fitted.

Maintenance

We recommend that natural materials are carefully cleaned and regularly sealed to prevent staining and damage. You can purchase intensive cleaner, maintenance cleaner and sealer from your retailer.

Disclaimer

Each Symphony surround is unique in colour/markings, therefore you will not get an exact match to the brochure.
